Create Icon & Splash Screen

Step One

ionic cordova resources

Checkout Official doc or Video Guide Here

Create icon and splash screen

The source image for icons should ideally be at least **1024×1024px** and located at **resources/icon.png**. The source image for splash screens should ideally be at least **2732×2732px** and located at **resources/splash.png** . If you used ionic start, there should already be default Ionic resources in the **resources/ directory**, which **you can overwrite**.

Generate icons and splash screens

```
ionic cordova resources
```
